E TRAILIES BY THE WWANT AND IM

Let's suppose you have a room for rent. There are several ways in which you can let people know about it."

First, you can tell all of your friends. And you can ask them to tell all of their friends. Maybe, if the telling keeps up long enough and reaches far enough, somebody will eventually be found who will come and take a look at that room.

Or you can put little cardboard signs in your downstairs windows, reading: "Room For Rent." Hundreds of people pass your house every day. Possibly one out of every hundred will see the sign, and one out of every thousand will be looking for a room.

Both of these ways are inexpensive. They're all right, too-that is, if you don't care whether you rent that room next week, or Christmas after next Christ-

But most people who have rooms for rent want to rent them as quickly as possible. How can you reach the people who are looking for rooms? Listen, and I'll tell you: Through the Classified columns of a good newspaper-a little Want Ad. will hunt out and reach

the very people you want to reach. And that method is inexpensive, also.

Just try it. Next time you want to rent a room, write a little Want Ad. and put it in this newspaper. People who want a room will see that ad. because they'll be looking for it, and-well, then it's up to you to take care of them when they write or call.
